TRANSPONDER WEDGE
VÁLIDO PARA LA COPIA DEL DST80

WEDGE TRANSPONDER
VALID FOR COPYING THE DST80

PROCESO DE COPIA MUY SENCILLO

- **No se necesita ir al vehículo**
- **Basta con actualizar el software JMATPX8PRO**
- **Se precisa conexión a Internet**

VERY SIMPLE COPYING PROCESS

- No need to access the vehicle
- Simply update the JMATPX8PRO software
- Internet connection required

REGRABABLE MÚLTIPLES VECES
CAN BE OVERWRITTEN MULTIPLE TIMES

Incorporable a todas las llaves de JMA
Compatible with all JMA keys

JMA**CLOUD**PRO

THE FUTURE OF KEY DUPLICATION

JMACLOUDPRO ABRE UNA NUEVA ETAPA EN EL SOFTWARE PARA EL DUPLICADO DE LLAVES, al ser la primera aplicación en la nube del mercado. Un gran avance que permite a los usuarios del programa JMAKeyPro guardar un histórico de los duplicados de llaves de sus clientes e importar planes de amaestramiento.

JMACLOUDPRO is setting a new trend in key duplication software by being THE FIRST CLOUD-BASED APP IN THE MARKET. This major step forward allows users of the JMAKeyPro programme to save a record of the keys they duplicate for their customers and import key mastering templates. These new features enable faster, more efficient work when duplicating keys with the MULTICODE machine.

REGISTRE LOS DUPLICADOS REALIZADOS A SUS CLIENTES
SAVE YOUR CUSTOMERS' KEY DUPLICATES

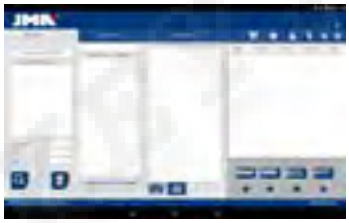
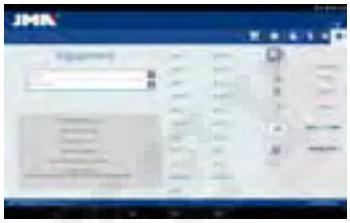
INTEGRACIÓN INSTACODE - INSTACODE INTEGRATION





InstaCode
CUTTING EDGE TECHNOLOGY

JMA lanzará próximamente la versión 2.1.330 del software JMAKEYPRO para el duplicado de llaves. La principal novedad de esta actualización es la compatibilidad con el programa Instacode, lo que permitirá a los usuarios de JMAKEYPRO usar también Instacode para cortar llaves.
Este proceso es tan sencillo como ir al menú Ajustes en JMAKEYPRO, pulsar sobre el icono de Instacode y ver la direccion IP que muestra el programa. Esta dirección IP será la que utilizará el usuario como dirección IP de la máquina Multicode en Instacode.

JMA will soon release the 2.1.330 version of the JMAKEYPRO software for key duplication. The main feature of this update is the compatibility with the Instacode software, which will allow JMAKEYPRO users to use Instacode to cut keys.
This process is as simple as going to the Settings menu at JMAKEYPRO, clicking on the Instacode icon and getting the IP address the program shows. This IP address will be the one that the user will use as the IP address of the Multicode machine in Instacode.
